

## [Haining Bangtai Co., Ltd.](#)

### About us

Founded in 1999, Haining Bangtai Co., Ltd is a professional manufacutrer of knitted sportswear textile. Located in Haining, Zhejiang Province, we are very close to Shanghai port and Ningbo Port. Up to now, company has both knitting and dyeing factories, including 20 warp knitting machines, 50 weft knitting machines, 10 dyeing machines and 2

setting machines. The annual production capacity can reach 50 million yards. Basing on [Sportswear Fabric Suppliers](#) the philosophy of high-technology and sustainability, Bangtai is consistently developing various recycle fabrics and functional fabrics. We are approved by IDFL institute for GRS certificate, can provide TC certificate and GRS label for our customer. For functional fabrics, we can provide moisture wicking, UV protective, anti- bacterial, waterproof and anti-pilling fabric. In [Waterproof Fabric OEM](#) addition, we also implement the EN20470 and EN531 standards for florescent fabric.

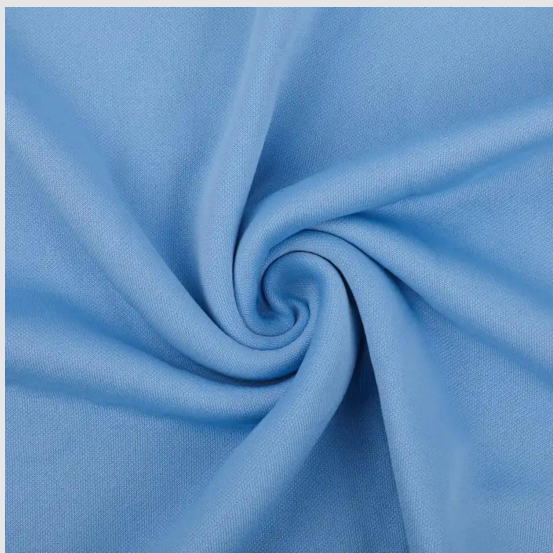

Bangtai is dedicated to developing and manufacturing knitting fabric from the very beginning. Our main products include: 100% polyester interlock fabric, eyelet mesh fabric, pique fabric, fleece fabric, tricot fabric, jersey fabric, suede fabric, poly/spandex scuba fabric, poly/spandex mesh fabric. These

fabrics are widely applied in sports shirt, sublimation cloth, school uniform, Safetywear, gym wear and casual wear.

With the excellent quality and competitive price, our fabrics are popular in Southeast Asia, Europe, Australia and North America market. We promise to be a credit-standing, high-quality and high-efficiency company.

## Products

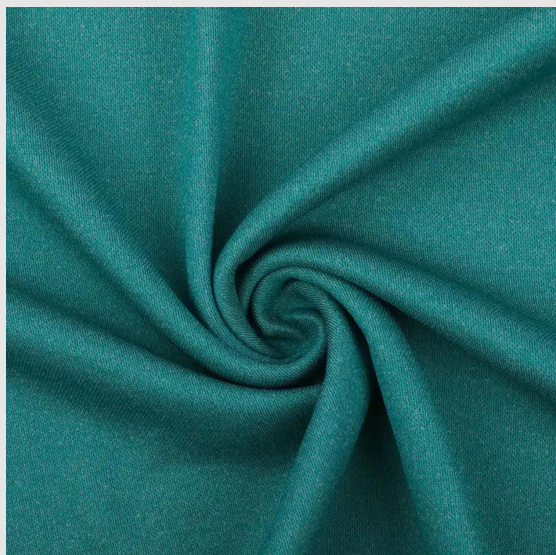

### [100% Polyester Brushed Double Knit Fabric](#)

100% polyester brushed double knit fabric is front-side plain with back-side brushed. The fabric is 2-way stretchy with smooth and soft handfeel. Polyester brushed fabric doesn't wrinkle easily and has excellent recovery (meaning it snaps back into shape after being stretched). Overall, it's an excellent option

for athleisure hoodie, jacket and pants.

### [Cationic Polyester Brushed Knitted Fabric](#)

The composition of this polyester brushed fabric is cationic polyester yarn on the front and normal polyester yarn on the back side. By using different yarns, fabric can have 2-tone effect and bright color. The fabric is 2-way stretchy with smooth and soft handfeel. Polyester brushed fabric doesn't wrinkle

easily and has excellent recovery (meaning it snaps back into shape after being stretched). Overall, it's an excellent option for athleisure hoodie, jacket and pants.
